

Millipede Treatment

CLIENT PREPARATION FORM

For our company to provide the most effective service possible, we ask you to review and complete all the necessary steps listed below. The following steps will ensure that your technician is able to provide an effective and safe treatment.

How to Prepare for the Service

BASEMENT & GROUND FLOOR

- ▶ Move all furniture 12" (30 cm) away from the walls. Please be sure to exercise safety first and do not attempt to move very large furniture.
- ▶ Clear all closet floors and shelves of shoes and other items. Clothing on hangers may be left in place.

EXTERIOR OF THE HOME

- ▶ Move all planters, patio furniture, etc 12" (30 cm) away from the walls. Please be sure to exercise safety first and do not attempt to move large furniture.
- ▶ Remove items and debris from moist dark areas such as porches, in window wells, around rock gardens etc., to allow access for the technician.
- ▶ Eliminate the leaf litter from the exterior perimeter.

After the Treatment

- ▶ **DO NOT** use other pest control chemicals (powders or sprays) or cleaning products anywhere near spray treatment, as this will decrease or eliminate their effectiveness.

Reminder

- ▶ When a spray is applied inside your residence, you and your pets will be required to vacate the premises. Typically, a 4-hour window is sufficient. However, your representative will advise you at the time of service or leave an information notice at your premises if additional time is required.
- ▶ Persons with underlying health conditions should consult their family physician if they are concerned about re-entry time.
- ▶ Upon re-entering, please open the windows for 20-30 minutes.
- ▶ Fish aquariums may be left on-site. However, they should be covered, and air filters disconnected.

What You Can Expect from the Treatment

- ▶ Your technician will use a number of methods to control the pest depending on each unique situation. Please do not move or tamper with any traps, monitors or products applied by your technician.

These have all been strategically positioned to maximize their effectiveness. All treatments are made with your safety in mind to ensure your health.
