Preventative Aprehend® Treatment

CLIENT PREPARATION CHECKLIST

To ensure the effectiveness of your preventative bed bug treatment, please review and complete all steps listed below prior to your Abell technician's arrival. Your technician will verify these preparations onsite. Failure to complete the required steps may result in delays, reduced treatment effectiveness, and potentially void any guarantee if applicable.Please complete this form and return it to your Abell representative at the time of service.

Checklist:

Bed(s) / Bedroom(s) Preparation

- ☐ Remove all bedding from bed(s), including sheets, pillowcases, pillows, blankets and comforters. You may choose to launder the bedding, but this is not mandatory for preventative treatment only.
- ☐ If the bed has built-in storage drawers (such as cabin beds), remove all clothing and items from the storage drawer(s). We recommend you place these items in bins or bags and place in the center of the room.
- ☐ Remove any loose clothing, garments from around the room and place in bins or bags in the center of the room.

Furniture & Room Preparation

- ☐ Move all furniture **12 inches away from walls**.
- ☐ Ensure full access to **baseboards and room perimeter**.
- ☐ Do NOT move items between rooms.

Personal Items & Electronics

- ☐ Leave all **electronics in place** for inspection.
- ☐ Ensure access around:
  - ▸ Nightstands
  - ▸ Desks
  - ▸ Furniture

Occupants & Pets

- ☐ All persons and pets must **vacate the premises during treatment**.
- ☐ Fish tanks:
  - ▸ Must be **covered**
  - ▸ Air pumps/filters **turned off**
- ☐ Do not re-enter for **minimum 4 hours** (or as directed by technician).
- ☐ Persons with underlying health conditions should consult their family physician if they have concerns regarding re-entry time.
- ☐ Upon re-entry, open windows for **20-30 minutes**.

Post-Treatment Actions

- ☐ Bedding and other objects can be placed back to their original place after treatment.
- ☐ Do not apply any pesticides or cleaning agents to treated areas such as box spring, bedframe, under couches and other furniture.
- ☐ Do not mop or steam treated areas as this will neutralize the treatment and void service warranties.
